
Welcome to Foundation Stage

We love experimenting with ice in the water tray

Mark making is fun!

Is it a den or a castle?

Creating a symmetrical pattern is challenging!

We are always proud to show off our work

Exploring leads to wonderful discoveries

We enjoy working together to create small worlds

Pampering can be fun too!

We have our very own toilets in the classroom

We can't wait to share our school and classroom with you

Welcome to St Thomas More!
